THE BUSINESS CHALLENGE

Is Manual Work Slowing Down Your Subscription and Delivery Business?

- Customer records are scattered across registers, spreadsheets and phones
- Subscription renewals and cancellations are difficult to track
- Daily delivery lists are prepared manually
- Holiday, pause and skipped deliveries create billing confusion
- Extra orders and quantity changes are easily missed
- Riders may deliver the wrong quantity or miss a customer
- Payment follow-ups take too much time
- Complaints, late deliveries and damaged products are difficult to monitor
- Sales, collection, outstanding and delivery reports are not available instantly

Kutumb Kart brings your complete subscription and delivery operations together.
